Council Decides To Retrench By Cutting off Street Lights

The regular meeting of the Blaimore council last night was attended by Mayor Bees, Councillors McVey, Dutil and Lagace, and Secretary Wright, and quite a number of ratepayers and spectators.

The minutes of previous meeting were on motion approved as read. Communications were received from the Union Bank of Canada, the Department of Municipal Affairs and the Bond Dealers Association. The first mentioned was the result of the town considering the acceptance of lots in lieu of tax arrears, and stated that as the Bank had been given first title to taxes due on certain lots they could not see their way clear to consent to disposal of lots on such terms. The Deputy Minister of Municipal Affairs replied to the Secretary's query on the same subject, and stated that the Town's Act made no provision empowering the council to adopt such steps, and that cash should be the only consideration for taxes.

A communication from the provincial board of health drew the attention of the town's health officer and board of health to certain unsanitary conditions existing and complained of by a citizen whose name they withheld. The question was referred to the proper authorities for investigation.

Councillor Lagace complained of certain parties having stables and other houses erected within the prohibitive distance from streams. He stated that the town was aware that some of them were far within the prescribed fifty-foot distance. Also that certain residences in his locality had not in connection with them the outhouses as prescribed by the Health Act.

In reply to complaints, the deputy minister informed the council that in the event of parties failing to live up to the requirements of the Health Act in this respect, the local board of health may take steps to condemn such property as being a menace to the health of the community.

The Blaimore Pharmacy applied for the privilege to erect a bracket sign over their store door. This matter was referred to the proper authorities to enquire into.

Accounts from W. A. Bees for April rent \$29; John Turner \$200, and the West Canadian Collieries for March light service \$450, were duly passed for payment.

By-Law No. 9, regarding medical health officer and sanitation was read a first, second and third time and finally passed.

By-Law No. 15, being known as the Vagrancy By-Law, was read a first, second and third time and finally passed.

By-Law No. 45, respecting penalties, was declared to be incomplete and was referred back to the draftsman.

An account from the West Canadian Collieries for some work done by Contractor Pozzi, was read. Secretary was instructed to ascertain from the W.C.C. what authority was received by them from the town for this work. The bill amounted to \$60.

The Mayor stated that the Council should endeavor to retrench wherever possible, and suggested that in view of the recent daylight saving measure giving longer evenings that the Council should decide to cut down or cut out the street lights for a few of the summer months. On motion by Dutil-Lagace, it was decided to cut off the street lights until further notice, to take effect May 1st. It was felt that cutting off the street lights for several months would effect a saving of several hundred dollars for the town, besides allowing of a twenty-four hour electric service for subscribers, thereby avoiding the necessity of so many people getting out in their night-robes in the still hours of night to do their ironing.

No other business, the Council adjourned at 10 p.m.

New B.C. Taxation Bill

The British Columbia government has introduced a bill, providing for a new assessment on all farm realty subject to taxation, on which 1919 taxation will be based. Improvements are exempted up to \$1500, in addition to the \$1000 exemption on personal property. On mining the tax provided for is 2 per cent, on the income or the assessed value of ore removed, whichever is the greater. If taxed on income, depreciation of plant up to 15 per cent may be allowed at the discretion of the minister of mines. Deduction for salaries of officers and directors will be allowed when these are resident in British Columbia and pay income tax themselves, and mining dividends would be exempt from income tax when the tax is paid at the source. Gold mining companies will be taxed on profits only. The tax on iron ore is 3 1/2 cents a ton. All mining taxes are to be in force as from January 1st, 1917. Salmon canners will pay four cents a case or income, whichever is greater for 1918, but will pay income for 1917. The same applies to whaling companies, either on income or 10 cents a barrel for whale oil and 20 cents a ton for fertilizer.

The banquet given in honor of the departing militaries at the Cosmopolitan hotel on Friday night last was attended by representatives from every town and village in The Pass. A splendid programme was carried out through Mr. J. F. Hunter as master of ceremonies. Many fitting tributes were paid to the past history of the R.N.W.M.P., and regrets were expressed by all that such an organization should become a thing of the past.

Fight with Food

A Call to the Whole Dominion for the Utmost Effort to Produce Food for our Soldiers and Allies

OUR ALLIES are desperately short of food. In the midst of plenty ourselves we must face the stern reality of England on shorter rations than she has been for over a hundred years, and France with only three days' food reserve. Even from their present small supplies they are saving Italy from collapse through hunger.

Since shipping must be concentrated on the shortest routes, Canada and the United States must continue to be practically the only source of supply.

Canada must provide wheat and meat in increasing quantities to meet a situation that imperils the issues of the war.

Men who can be spared for work on the farms must serve in this way. Those who are obliged to remain in the city or town can at least raise vegetables in their gardens or on vacant lots. Every effort will be made to see that labor is forthcoming to harvest the maximum crops that farmers can produce.

An increased spring acreage in wheat and other grain is vitally needed.

Stock raisers are asked to provide the greatest possible production of meat, especially pork.

Starvation is threatening our Allies. Everyone in Canada must fight by doing his or her utmost to produce and to conserve food.

Eggs are five dollars each in some of the occupied portions of Northeastern France, and here in this country you can almost obtain possession of a full grown "chicken" for that amount.

C. W. Smith, of Medicine Hat, has been appointed Alberta superintendent of registration, which takes place early in June.

General Nelson, commanding the troops in Ireland, has issued an order forbidding anyone to carry or possess arms, ammunition or explosives in civilian Irish counties, and also the cities of Cork and Limerick, unless duly authorized.

A Truck for the Farmer

FARM equipment which will effect a time and labor-saving, and therefore a money-saving, must be carefully considered by every good farmer now-a-days.

The farm wagon, which for years was the most useful of all farm equipment, is now being replaced on the best farms by a sturdy, dependable motor truck. The truck will haul any farm product—fruit, grain, vegetables, stock, fertilizer, or wood—around the farm, or to the town or city many miles distant, in half the time, and at a much lower cost.

The Ford One-Ton truck is a rapid, economical and very serviceable means of transport. One of these on your farm will save you weeks of time in a single season and will enable you to pass through a crisis of labor shortage with less difficulty.

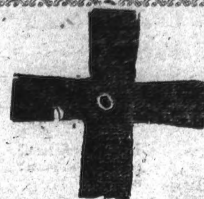

The Ford truck is supplied as a chassis only. This permits you to select any of the many body styles especially designed for the Ford truck and already on the market. Thus you can mount the one which suits your individual requirements.

Price \$750 f.o.b. Ford, Ont.

PRISONERS OF WAR

Many appeals are now being made for PRISONERS OF WAR. It is entirely unnecessary for any other organization except the Canadian Red Cross to collect for Canadian Prisoners of War, as the Secretary supplies these men with bread and other food to the maximum permitted, tobacco and clothing, as allowed by the regulations.

CANADIAN AVIATORS being in the Imperial Army receive their parcels from the Central Prisoners of War Relief Committee, unless by request they are taken over by the Canadian Red Cross Society, which has already, and is willing to undertake again to adopt Canadian aviators in this service by paying over from the Society's funds the necessary amount for their parcels, without making any further appeal to the public for this object.

Canada's donations to the British Red Cross and Allied Red Cross Societies help to furnish funds for the care of British and Allied prisoners. Any Person or Community supporting the Canadian and British Red Cross is thereby providing also for Canadian, British and Allied prisoners.

Returned Canadian prisoners report that the Canadian Red Cross parcels are arriving safely and are most satisfactory.

According to the programme so far drawn up by the Dominion Chautauquus Committee, Blairmore is out cut for the season; but judging from correspondence received quite recently from the Alberta manager, this is not the case, for it has been intimated that the programme for Blairmore will be bigger and stronger than last year's, and that some of the very best talent obtainable will be presented here.

In the new order-in-council recently issued at Ottawa, providing for the punishment of idlers, the government is simply fulfilling

A most successful sale of work was held on Wednesday, April the 24th, in the Oddfellows' hall, under the auspices of the ladies of the Anglican church.
